PINANCIAL AND COMMERCIAL.

The course of prices on the Stock Exchange

to-day was decidedly irregular. Important

interests in various stocks were extensive

buyers of them, particularly during the arst

half of the day, when some of the highest pieces recorded since May 9 were made. There

was also a moderate amount of actual buying through commission houses, and it was re-

markably well distributed. On the other

hand there was a good deal of profit-taking.

and the new litigation against the Amalga-

mated Copper Company and a sharp rise of

7 points in Rock Island in the last hour of

business upset many speculative calculations

and disturbed the market as a whole

WEDNESDAY, June 5.

ROCK ISLAND SENSATION.

RECORD PRICE FOR THE STOCK WHICH SHORTS FOUND SCARCE.

\$10,000,000 of New Stock-Moore Interest Said to Have Been Increased and Standard 00 Interest Withdrawn-Changes in the Board of Directors at the Annual Meeting.

Rock Island stock was the great sensation in the stock market in the late afternoon rading yesterday, its rapid advance to figures that made it for a time sell higher than St. Paul stock leading to rumors of a possible corner in the stock. These rumors were sufficient to unsettle the stock market in general, causing selling by holders of stocks who hadn't had time to forget the Northern Pacific corner. The closing of the market was weak. Rock Island, which had made the new record price of 175%, after selling so low as 166% early in the day, closed at 171, representing a net advance compared with Tuesday's closing price of 2% points. The total sales were 42,600 shares.

While it is admitted that the stock is closely held and that the conditions exist for a serious squeezing of any considerable short interest in the stock it was not believed by important Wall Street interests that a Rock Island corner was pending. According to one Wall Street report yesterday one well-known banking and brokerage firm in this city is holding 150,000 shares of Rock Island, and another brokerage firm, always active on the the Exchange, is carrying 70,000 shares, lending the greater part of it. A third house, representing perhaps the bestknown manipulator of Wall Street, is credited with carrying somewhat over 50,000 shares. It is stated that these three holdings constitute a community of interest.

Another Wall Street story, thought to have

Another Wall Street story, thought to have some bearing upon the situation, was to the effect that a Broadway brokerage firm about two weeks ago had been a large seller of stocks for short account, the whole being somewhere in the neighborhood of 100,000 shares. The market afterward was irregular for two days, but then began to go steadily upward. Yesterday a Mills Building firm was a heavy buyer around the room and report had it that there was good reason to think that the transactions represented covering of the Broadway firm's sales of a formight ago at a loss of upward of \$1,000,000.

Important changes were made at the annual meeting of the Bock Island shareholders which was held in Chicago yesterday. William H. Moore of New York, the organizer of several great industrial combinations, was elected a director in place of Henry M. Flagler of the Standard Oil Company. Mr. Flagler declined a reelection. D. G. Reid, a business associate of Mr. Moore, was elected to the board in place of H. A. Parker, resigned.

elected to the board in place of H. A. Parker, resigned.

Ex-Judge Moore and his friends are reputed to hold about 150,000 of the 500,000 shares of Rock Island stock. The Standard oil interest in this property, it is stated, has been practically eliminated.

Anson R. Flower and George S. Brewster of this city and F. H. Griggs of Davenport, Ia., whose terms of office expired at this annual meeting, were reelected directors without opposition. The total number of shares voted were 401,507, a majority of which were voted by the proxy committee representing the present management of the road.

The new Board of Directors elected officers of follows: Chalrman, R. R. Cable: Presistants new Board of Directors elected officers

The new Board of Directors elected officers as follows: Chairman, R. R. Cable; President, W. G. Purdy; First Vice-President, H. A. Parker; Second Vice-President, Robert Mather; Third Vice-President, J. M. Johnson; Secretary, George H. Crosby, and Treasurer, F. E. Hayne. George T. Boggs was reappointed Assistant Treasurer and Assistant Secretary in New York. An Executive Committee was chosen as follows: R. R. Cable, W. G. Purdy, H. R. Bishop, Marshall Field and Anson R. Flower.

The directors provided for the distribution of \$10,000,000 of additional stock. All stockholders of record at the closing of the transfer books on June 28, 1901, will have the right to subscribe at par for this new stock in the proportion of twenty shares for each 100 shares of old stock. The closing quotation for Rock Island shares in the Stock Exchange yesterday was 169. The new Issue of stock will increase the company's capitalization to \$60,000,000.

MORGAN INTEREST IN ATCHISON. Charles Steele Elected a Director to Succeed Aldace F. Walker.

Charles Steele of the firm of J. P. Morgan & Co. was elected a director of the Atchison. Topeka and Santa Fé Railroad at a meeting of the board in this city yesterday. Mr Steele takes the place made vacant by the death of Aldace F. Walker and also succeeds Mr. Walker as a member of the Executive

It is outho change in the control or policy of the Atchison system is indicated by Mr. Steele's election. J. Pierpont Morgan and his friends have had a considerable interest in Atchison for some time, and there is a current belief in Wall Street that this interest has been increased within the past few months. There was a unanimity of sentiment among the directors in favor of giving the Morgan interest a direc-

unanimity of sentiment among the directors in favor of giving the Morgan interest a direct representative in the board.

Other changes made at this meeting of the Atchison directors were: The abolition of the office of chairman of the board, the election of Victor Morawetz as chairman of the Executive Committee, the election of J. W. Kendrick, lately of the Northern Pacific, as Third Vice-President in place of J. N. Earr, resigned; the appointment of D. L. Gallup as permanent vice-chairman with head-quarters in this city.

The regular semi-annual dividend of 2½ per cent on the Atchison preferred stock was declared, payable Aug 1. The report that negotiations are pending for the leasing of the Abchison system to the Union Pacific was authoritatively denied. The traffic manager reported that he had found it expedient to establish an employment agency in Kansas City for the purpose of assisting the grain growers in Atchison territory to harvest their crops.

E. P. Ripley, President of the Atchison Company, who reached this city from Chicago yesterday, said regarding the Wall Street report that his road was to be leased to the Union Pacific: "The matter has never been discussed in Atchison councils and I don't think it has been by the Union Pacific." He said that Mr. Steele had not been taken into the Atchison board because he was of the Morgan firm, but because of the fact that he was a good, strong man to add to the board. The same statement, he said, could be made of Mr. Kendrick. Mr. Morawetz had always been an "Atchison man."

WABASH PLANS BLOCKED

Entry Into Pittsburg Probably Delayed Until Next February.

Next February.

Pittsburg, June 5.—From trustworthy authority it was learned to-day that the Wabash Baliroad was blocked in its scheme to get an entry into Pittsburg by the action of the Jutte interest in the Castle Shannon Railroad deal. It was said that the scheme of the Wabash was to get an entry to this city over the Castle-Shannon route and that in the interest of the company, the Jutte people opposed the Castle Shannon and purchased a controlling share of stock on Dec. 3.

The election of officers of the company took place on Feb 1, 1901, and as the charter of the company provides that no change can be made in the election of officers, if no design the management of the road. Nothing can now be done until next February and the Wabash entry will be delayed that long In connection with the above story it is grounded that four next, including George carlied \$5,000,000 each to the venture of the Wabash.

YOU CAN JUDGE THE FUTURE BY THE PAST.

What We Have Done Within One Year:

We sold stock in a Plantation Company in Mexico that has already paid a good dividend, and pays another within ninety days, and has contracted to sell a small portion of its land for enough to almost pay the entire capital stock of the Company.

We have had oversubscribed by thousands of shares the stocks of Three Oil Companies, and every

one of them have paid big dividends.

Stock No. 1, sold 10 months ago, has already paid 18 per cent. In dividends.

Stock No. 2, sold 6 months ago, has already earned 10 per cent. In dividends.

Stock No. 3, sold 4 months ago, has already paid 6 per cent. In dividends.

Stock No. 3, sold 4 months ago, has already paid 6 per cent. In dividends.

We are now linancing a fourth Oil Company, which will surpass any of its worthy predecessors.

We will be pleased to offer intending investors all the information at our command for a full, free and therough investigation of any stock we offer to the public.

AMALGAMATED RESTRAINED.

Stockholders Cannot Increase Capital Stock at

To-day's Meeting-Suit Brought in Boston.

Vice-Chancellor Stevenson in Chancery chambers, Jersey City, granted leave yesterday afternoon to Calvin O. Geer and the C Venner Company of Boston, stockholders of the Amalgamated Copper Company, to file a supplemental bill in their suit to enjoin permanently the company from acquiring the stocks of the Boston and Montana and Butte and Boston Mining companies. The Vice-Chancellor also granted a temporary injunction, restraining the stockholders of the company from doing anything to carry out the purchase or to increase the capital stock from \$75,000,000 to \$155,000,000.

Charles L. Corbin, William H. Corbin, Richard V. Lindabury and John A. Garver, counsel for the Amalgamated company, were

& Wolff of Belfast for the construction of a large twin-screw freight steamer for its large twin-screw in reight steamer for its service between Liverpool and this port. She will be 500 feet long, 58 feet breadth of beam and about 38 feet depth of hold. She will be fitted for carrying several hundred head of cattle. It is possible that the company may order another steamer of similar dimensions from the same firm of builders. The matter is now under consideration. Banhers and Brokers.

It has been obvious for some time past that Rock Island is very closely held, hence

the advance in it from 168 to 175% within the space of half an hour promptly aroused suspicions that the stock was virtually cornered and that there might be a repetition of the unfortunate episode of nearly a month ago The movement in the stock was amply explained by the decision of the management to-day to issue \$10,000,000 of new stock for extensions and for additions to the property. which have not yet been capitalized, and to offer the same to the stockholders at . par at the rate of 20 per cent of their present holdings. The creation of these rights naturally alarmed the short interest, hence the jump in the price and the subsequent reaction

which left the stock only 2% points higher than yesterday The heaviest trading was in Southern Pacific, aggregating over 200,000 shares. In the early dealings it advanced 2% points, but subsequently lost of all that improvement and closed nearly a point lower than yesterday. Reports are current that a dividend will be declared upon the stock at a meeting of the directors to be held to-mor row. The preeminently strong feature of the railway ist was Atchison common or sales of over 150,0000 shares. It advanced 4 points to 91 and retained nearly hair of that gain at the close. The election of two or three new directors of the company today, who, it was assumed by the Street represent important banking and rallway interests not heretofore identified with the company, was utilized to promote the speculation in Atchison issues Pennsylvania was also exceptionally strong and was on of the few railway stocks that closed higher than last night Less active issues that resisted the reactionary tendency were Canadian Pacific, Denver and Rio Grande issues, Illinois Central, Toiedo, St. Louis and Western Issues, St. Jo and Grand Island preferred and Wisconsin Central issues All of them were dealt in more extensively

than for some time past The reactionary tendency was most prorounced in Erie common, Ontario and Western, Union Pacific, St. Paul and in Missouri Pacific. There was some selling of Brooklyn Rapid Transit on a misapprehension of he extent of the damage to one of the company's power plants. Pacific Mail received inusual attention that resulted in a net gain of 1% per cent. The news affecting values other than that already noted consisted of railroad traffic returns. Conspicuous among these is that of the Père Marquette company for April, which shows an increase n net earnings as compared with the same nonth of last year of nearly 50 per cent. and an increase in the surplus after charges

of 58 per cent.

the remainder of the list, Foreign arbitrage houses did comparatively tone at the close was in the main heavy.

There was a decided falling off in the transactions in all the industrial shares and particularly in Sugar Refining. Amalgamated Copper was depressed 2% points by the new litigation, to which reference has already been made. The Tobacco stocks were exceptionally firm and American Car and Foundry common was taken in the hands, made active and the price advanced nearly a point. The transactions in the Steel stocks may be described as about normal and after an early advance they declined in unison with

The bond market was not affected by the fluctuations in stock values. The dealings were fairly large and exceedingly well distributed. There is already discernible some buying of bonds and other investment securities in anticipation of the extraordi-pary heavy July 1 disbursements. The "curb" market was comparatively quiet and the fluctuations in prices were narrow, little business, interest in stocks in London being diverted largely to the Derby. The

Receipts 180,000 328,100 125,712

Wheat declined owing to further rains, better crop advices, a drop of sid. at Liverpool, 12 to id. at London and 5 centimes at Paris, foreign selling and pretty heavy liquidation. There were good rains in the Dakotas, Nebraska, lowa and Manitoba. The Ohio condition is 80, against 82 a month ago, though the acreage is small. Northwestern receipts were nearly 100 cars larger than a year ago. Laier on there was some recovery on covering of shorts who were nervous owing to the fear of July manipulation at the West. Continental crop advices are rather buillish and Budapest advanced 5 kr. and Berlin 114 marks. The official Hungarian crop report says that unless favorable weather acts in the yield of wheat will be considerably less than last year, while rye is poor and barley in need of rain. Corn was easler, owing to the break in wheat, liberal selling by the country and liquidation, but there was no aggressive selling for short account, owing to the fear of frost to-night and the decline was therefore slight. Heceipts were moderate, too. Chicago getting 344 cars with only 41 of contract grade. There was a rather sharp break in oats at the West, owing to heneficial rains which led to scheral selling, but there was a raily later on covering. Chicago received 218 cars with 17 of contract grade. There was a raily later on covering. Chicago received 218 cars with 17 of contract grade.
